

# CODEX CAPTURE DRIVE® DOCK

CDX-75013-1

## MAKING YOUR WORK FLOW

The Codex Capture Drive Dock (Thunderbolt 3) allows you to quickly offload your camera original data from a Codex Capture Drive or Compact Drive to internal, external or network attached storage on your Mac. It integrates with Codex Device Manager which provides the option of a workflow using High Density Encoding.

## SPECIFICATIONS

|                                |                                    |
|--------------------------------|------------------------------------|
| Interface                      | Thunderbolt 3                      |
